WRO NIGERIA 2025 INTERNATIONAL AND AFRICAN RANKING

The table presents the rankings of Nigerian teams at the World Robot Olympiad (WRO) International Final in Singapore. For each team, the table indicates both their global ranking and their ranking among African teams.

It is important to note that the World Robot Olympiad classifies North African countries under the Middle East and North Africa (MENA) category, which is separate from Sub-Saharan African countries. As such, the African rankings reflected in this table exclude countries categorized under MENA.

To verify these rankings, please visit the WRO International Scoring Platform for 2025 at: https://scoring.wro-association.org/en/event/scoring/293. Each team can be identified by the country flag displayed beside the team name.

WRO NIGERIA TEAMS AND THEIR RANKS

S/N	WRO Categories	Total Points	Global Ranking	Africa Ranking
	ROBOMISSION			
1	Team Frolic Bots (Elementary)	30	95th / 96	6TH
